shall modify the tariff as shown hereon.	Sheet 5 of 5 Sheets

Solar Division Tier 3: Renewable Energy Charge will be the average energy charge associated with energy received in a given month from the Cooperative's wholesale power provider's solar purchase power agreement associated with the Consumer's Tier 3 Service Agreement. The Renewable Energy Charge, in combination with revenue earned from selling participation energy into the SPP Integrated Marketplace, will be used to calculate a modified Energy Cost Adjustment as described in each participating Consumer's service agreement. All other applicable charges under the applicable rate schedule for standard service to the Consumer will apply.

SERVICE AGREEMENT

All Consumers taking service under this Rider, excluding Consumers taking service under Solar Division Tier 1b – Residential Community Solar, will be required to enter into a three-party service agreement between Cooperative's, Cooperative's wholesale power provider, and the Consumer. The service agreement will define the Consumer's selected Division, Tier, and Participation Level. The term of the agreement will be determined between the parties, but the term shall be no less than one year for service under Tiers 1 and 2, except for Solar Division Tier 1b – Residential Community Solar. Tier 3 service agreements shall include exit fee provisions to protect against stranded investment if a Consumer leaves prior to the expiration of any new power supply arrangement entered into by Cooperative's wholesale power provider to serve the Consumer per the terms of this Rider.

All residential Consumers taking service under Solar Division Tier 1b – Residential Community Solar will be required to enter into a written service agreement with the Cooperative. A residential Consumer may terminate service under the service agreement and this Rider at any time, but if terminated, Consumer will be prohibited from signing up for service under this Rider again for a period of one year.

ADDITIONAL TERMS AND CONDITIONS

- Certification of renewable energy purchased under this Rider will be delivered to the Consumer, excluding Consumers taking service under Solar Division Tier 1b – Residential Community Solar.
- 2. Service under Tiers 1 and 2 is subject to adjusted Participation Levels if the total amount of participation energy in a given month exceeds 50% of the total renewable energy produced by Cooperative's wholesale power provider's renewable energy resources.
- 3. Service under Tier 3 will not be available until the aggregate participation level requested reaches a threshold sufficient for Cooperative's wholesale power provider to justify pursuing a new renewable resource, as determined by Cooperative's wholesale power provider.
- 4. Cooperative may terminate Consumer's service under this Rider if Consumer is disconnected by Cooperative pursuant to the Cooperative's Rules and Regulations, or if Consumer makes three or more late payments in one year.
- 5. Cooperative may include additional terms and conditions in the service agreement as reasonably determined by the Cooperative.
